

2022 Building Program Update

OCT 2022

PresAID is the Overseas Aid and Development arm of the Presbyterian Church of Australia. In December 2021 PresAID conducted an appeal to congregations across Australia to raise funds for classroom buildings at the Orbus Centre in Blantyre, Malawi, Africa. These funds were passed on to Orbus Ministries Australia Inc. (OMA), and along with additional funds from donations made to OMA, a building program was launched in conjunction with our partner in Malawi, the Church of Central Africa Presbyterian - Blantyre Synod. Under the watchful eye of the in-house Orbus building Supervisor and Project Manager, Lameck Chitela working closely with the Synod Education Director Moses Kasitomu and OMA's Craig Manners, a smooth operation has been underway since mid 2022 focused on three separate buildings.

Three Buildings:

- 1- Completion of the 4 x 3 BR Teachers Accommodation Building.
- 2- A 2 x classroom building for the Primary school.
- 3- A building to house a chemistry lab and a library for the Secondary school

PresAID Convener and Orbus Centre Trustee Rev. John Wilson visited Orbus in August. The first primary school students started using their new classrooms in October

2022.

*Thank
you
presAID
and all
donors!*
